1. Introduction

Millions of people have been deceived into believing that the Quran is perfect, preserved, without error, and comes from an all-knowing divine being, God. These people have never properly studied the Quran and are told about some cherry-picked teachings in a misleading way.

A closer examination of the knowledge in the Quran reveals that it is full of mistakes and contradictions, because it comes from uneducated humans who live in the desert.

Denying evidence and accepting claims without proof and verification is blind faith. This results in becoming corrupt and spreading false knowledge.

Knowing and accepting the truth is very important, because the true God wants everyone to be truthful, for He is the absolute truth.

2. Creation Based on Al-Quran

Al-Quran depiction of Earth and Universe.

Based on Al-Quran:

- a. The Earth is flat. (Quran 20.53, 78.6, 2.22, 79.30)**
- b. The sky is a canopy or dome above the Earth. (Quran 21.32)**
- c. The dome contains the Earth, Sun, Moon, and Stars. (Quran 7.54)**
- d. There is only one Earth, one Sun, and one Moon. (Quran 7.54)**
- e. The Sun, Moon, and the Stars are roughly the same distance from the Earth surface, because they are within the dome. (Quran 7.54)**
- f. There are seven layers of heavens above the Earth. (Quran 67.3)**
- g. There is water within and above the Earth (Quran 11.7, 23.18).**
- h. The Earth is fixed and does not move. (Quran 27.61)**

Scientific Facts

- a. The Earth is spherical (round from all sides) and not flat. One can get on a plane and see the proof.
- b. There is no water above or beneath the Earth.
- c. The Sun, Moon, and Stars are not equal distance from the Earth. The Moon is 238,854 miles from the Earth surface; the Sun is 149.60 million miles from the Earth, and there are billions of Stars which are billions of miles from the Earth.
- d. The Quran does not mention the billions of planets beyond the Earth which are in our universe.
- e. The Quran does not mention the billions of other Suns, Moons, and Stars.
- f. The Quran does not mention the other universes beyond ours, multiverse.
- g. Not only does the Earth move (spin on its axis). It also rotates around the Sun.

Scientist's depiction of the vast cosmos showing the universe and multiverse filled with billions of planets, suns, moons, and stars.

The Earth is floating in space, spinning on its own axis and moves in a circular path around the Sun.

Al-Quran Verse	Explanation of Al-Quran Verse
<p><i>"Who has made Earth for you like a bed (spread out)." (Quran 20:53)</i></p> <p><i>"Have We not made the Earth as a bed." (Quran 78:6)</i></p>	<p>The Arabic word used in the Quran to describe the Earth shape is 'Mahdan', which means "bed". The bed is flat.</p>
<p><i>"And We have made the heavens as a canopy..." (Quran 21.32)</i></p>	<p>A canopy or dome covers the Earth.</p>
<p><i>"He Who created the seven heavens one above another..." (Quran 67.3)</i></p>	<p>There are seven layers of heavens above the Earth.</p>
<p><i>"He it is Who created the heavens and the earth in six Days..." (Quran 11.7)</i></p>	<p>Creation was done in 6 days; this aligns with the Bible teaching.</p>
<p><i>"His Throne was over the waters..." (Quran 11.7)</i></p> <p><i>"And We send down water from the sky..." (Quran 23.18)</i></p>	<p>There is water within and above the Earth. Since the Earth is flat, the water also pours beneath the Earth.</p>
<p><i>"He created the sun, the moon, and the stars..." (Quran 7.54)</i></p>	<p>Creation of one Sun, one Moon, and Stars.</p>
<p><i>"Is not He (best) Who made the Earth a fixed abode..." (Quran 27.61)</i></p>	<p>"(Is not He Who has made the Earth as a fixed abode,) meaning, stable and stationary, so that it does not move or convulse, because if it were to do so, it would not be a good place for people to live on. But by His grace and mercy, He has made it smooth and calm, and it is not shaken or moved." (Ibn Al Kathir commentary on 27.61)</p> <p>According to the Quran, the planet Earth is stationary and does not move.</p> <p>The Arabic word for Earth is 'Ard' and the Arabic word for rotation is 'Falak'. There is no verse in the Quran that states the Earth is rotating (Ard Falak' or 'Falak Ard').</p>

3. Does the Sun submerge in a spring of water on Earth?

Based on the Quran:

Nighttime is when the Sun submerges in a spring of murky water on planet Earth. Day time is when the Sun comes out of the murky water. The Sun is hot because it was soaked in hot water all night.

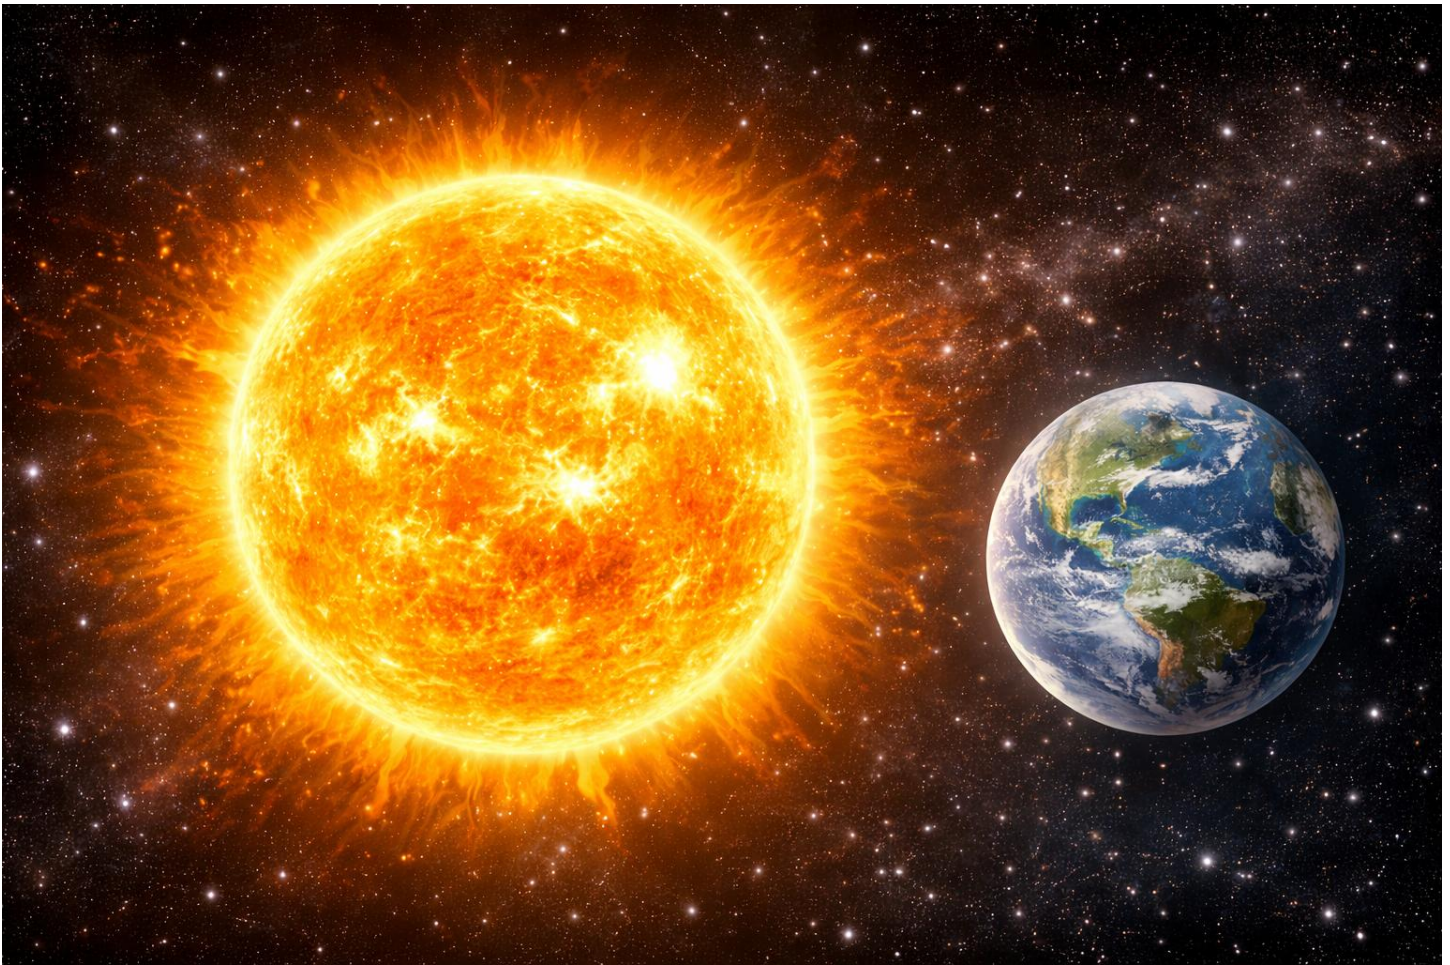

"So he followed a way. Until, when he reached the setting place of the Sun, he found it setting in a spring of black muddy (or hot) water. And he found near it a people..." (Hilali & Khan, Quran 18:85-86)

"Then he followed another way. Until, when he came to the rising place of the Sun, he found it rising on a people for whom We (Allah) had provided no shelter against the Sun." (Hilali & Khan, Quran 18.89-90)

The Prophet of Islam also confirms that the Sun sets in a spring of water.

"Abu Dharr (one of Muhammad's close companions) said: I was sitting behind the Apostle of Allah who was riding a donkey while the Sun was setting. He asked: Do you know where this sets? I replied: Allah and his Apostle know best. He said: It sets in a spring of warm water." (Sunan Abi Dawud 4002)

Scientific Facts

The Sun's diameter is 865,000 miles while the Earth's diameter is 7,918 miles. It is impossible for the Sun to submerge into a spring of water on planet Earth, impossible. And it is too hot for humans to live near the Sun; the extreme heat, reaching thousands of degrees Celsius, would instantly vaporize a person.

4. Does the Sun rise and set?

"Allah brings up the Sun from the east... (Quran 2.258)

Based on the Prophet of Islam, the Sun sets and rises.

"The Prophet (ﷺ) asked me at Sunset, "Do you know where the Sun goes (at the time of Sunset)?" I replied, "Allah and His Apostle know better." He said, "It goes (i.e. travels) till it prostrates Itself underneath the Throne and takes the permission to rise again...". (Sahih al-Bukhari 4.54.421)

Scientific Facts

The Sun does not rise, nor does it set.

The Earth is spinning on its own axis and rotating around the Sun. Due to the positioning of the Earth relative to the Sun, there is day and night in different parts of the world. It takes 365 days for the Earth to go around the Sun once and it takes 24 hours for the Earth to spin once on its axis.

5. Does the milk in cows comes from between the feces and blood in the belly?

The Quran teaches a lesson on grazing livestock. It teaches that milk comes from between feces and blood in the belly of livestock like cows.

"And indeed, for you in grazing livestock is a lesson. We give you drink from what is in their bellies - between excretion and blood - pure milk, palatable to drinkers." (Quran 16:66)

Scientific Facts

This teaching from the Quran shows that the compiler of the Quran has no biology knowledge. The milk comes from the mammary glands of cows and not from between feces and blood. There are no feces, nor blood within the belly. The feces are in the colon.

6. Have the Earth, Universe, and Humans existed for 6,000 years?

Timing of Creation of Earth and Universe Based on the Abrahamic Scriptures

	Scripture Reference	Event Description	Date	Age of Earth and Universe (years)	Human Population of World
01	Genesis 1.1-31	Creation of Universe and everything within it in 6 days Day 1 – Light is created Day 2 – The sky is created Day 3 – Land and vegetation are created Day 4 – The sun, moon, and stars are created Day 5 – Sea and air creatures are created Day 6 – Land animals and humans are created. Adam, the first human, was created.	4004 BC	0	2
02	Genesis 5.3	Seth born when Adam was 130	3874 BC	130	
03	Genesis 5.6	Enos was born when Seth was 105	3769 BC	235	
04	Genesis 5.9	Cainan was born when Enos was 90	3679 BC	325	
05	Genesis 5.12	Mahalaleel was born when Cainan was 70	3609 BC	395	
06	Genesis 5.15	Jared was born when Mahalaleel was 65	3544 BC	460	
07	Genesis 5.18	Enoh was born when Jared was 162	3382 BC	622	
08	Genesis 5.21	Methuselah was born when Enoch was 65	3317 BC	687	
09	Genesis 5.25	Lamech was born when Methuselah was 187	3130 BC	874	
10	Genesis 5.28	Noah was born when Lamech was 182	2948 BC	1056	
11	Genesis 11.10	Shem was born when Noah was 502	2446 BC	1558	
12	Genesis 7.6	Flood when Noah was 600	2348 BC	1656	
13	Genesis 11.10	Arphaxad was born when Shem was 100	2346 BC	1658	
14	Genesis 11.12	Salah was born when Arphaxad was 35	2311 BC	1693	
15	Genesis 11.14	Eber was born when Salah was 30	2281 BC	1723	
16	Genesis 11.16	Peleg was born when Eber was 34	2246 BC	1758	
17	Genesis 11.18	Reu was born when Peleg was 30	2217 BC	1787	
18	Genesis 11.20	Serug was born when Reu was 32	2185 BC	1819	
19	Genesis 11.22	Nahor was born when Serug was 30	2155 BC	1849	
20	Genesis 11.24	Terah was born when Nahor was 29	2126 BC	1878	
21	Genesis 11.32, 12.4	Abraham was born when Terah was 130	1996 BC	2008	
22	Genesis 12.4	Abraham enters Canaan at 75	1921 BC	2083	
23	Exodus 12.40	Exodus of the Jews from Egypt	1491 BC	2513	
24		Last deportation of Jews	584 BC	3420	
25		Birth of Jesus	4 BC	4000	
26		Today (2025)	2029 AD	6025	8.2 billion

Above is the creation story from the Bible which is also in alignment with the Quran (Six days of creation and Adam and Eve, the first humans).

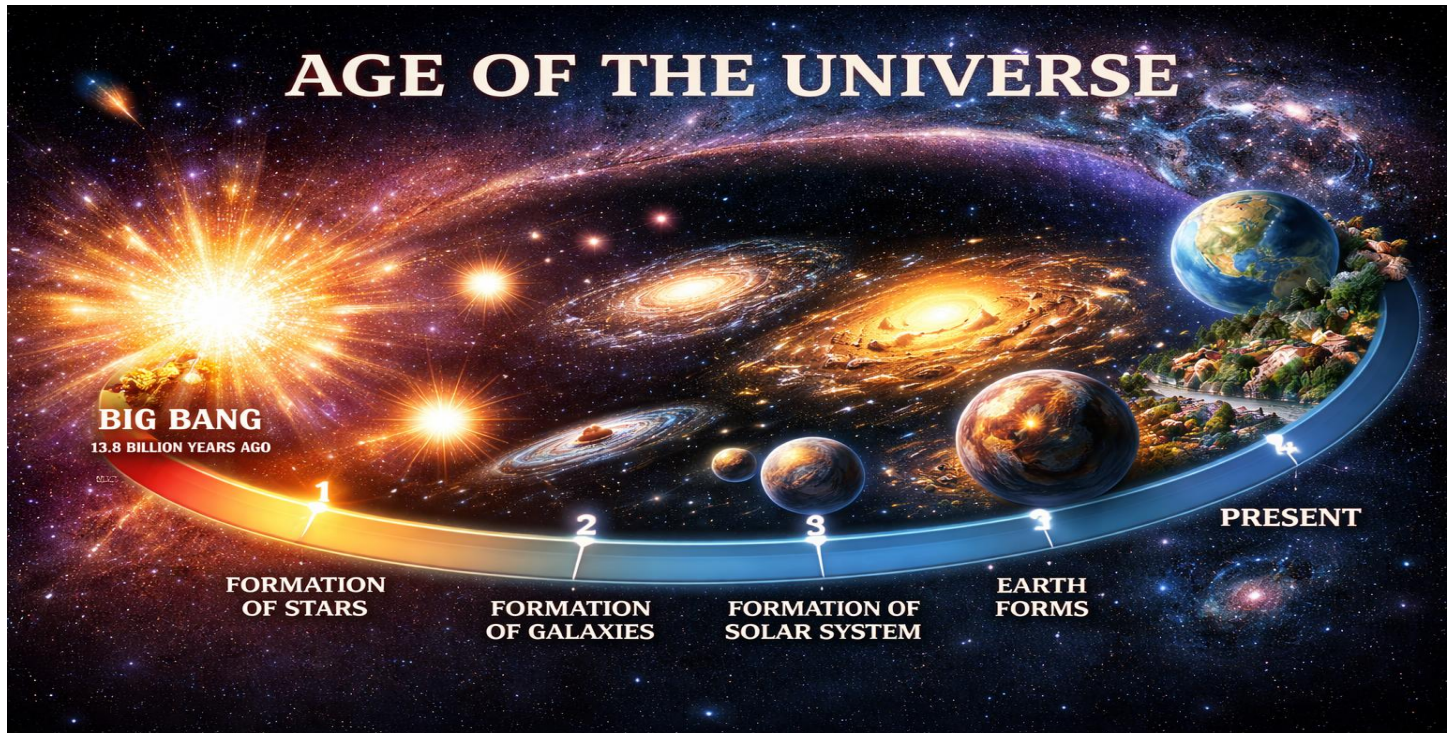

Based on the Quran, Hadiths, and the Bible. The universe was created about 6,000 years ago. Adam and Eve were the first humans created by God, and all humans of today originate from them. Bible References: Genesis 1.1-31, 5.5-12.40.

“And indeed We created the heavens and the earth and all between them in six Days and nothing of fatigue touched Us.” (Quran 50.38)

“O mankind! Be dutiful to your Lord, who created you from a single person (Adam), and from him (Adam) He created his wife [Hawwa (Eve)], and from them both He created many men and women.” (Quran 4:1)

Based on the Islamic tree of prophets: Noah existed between 4900 and 5900 years ago. Before Noah was Enoch and before him was Adam. So, the first human Adam, existed around 6,000 years ago.

Scientific Facts

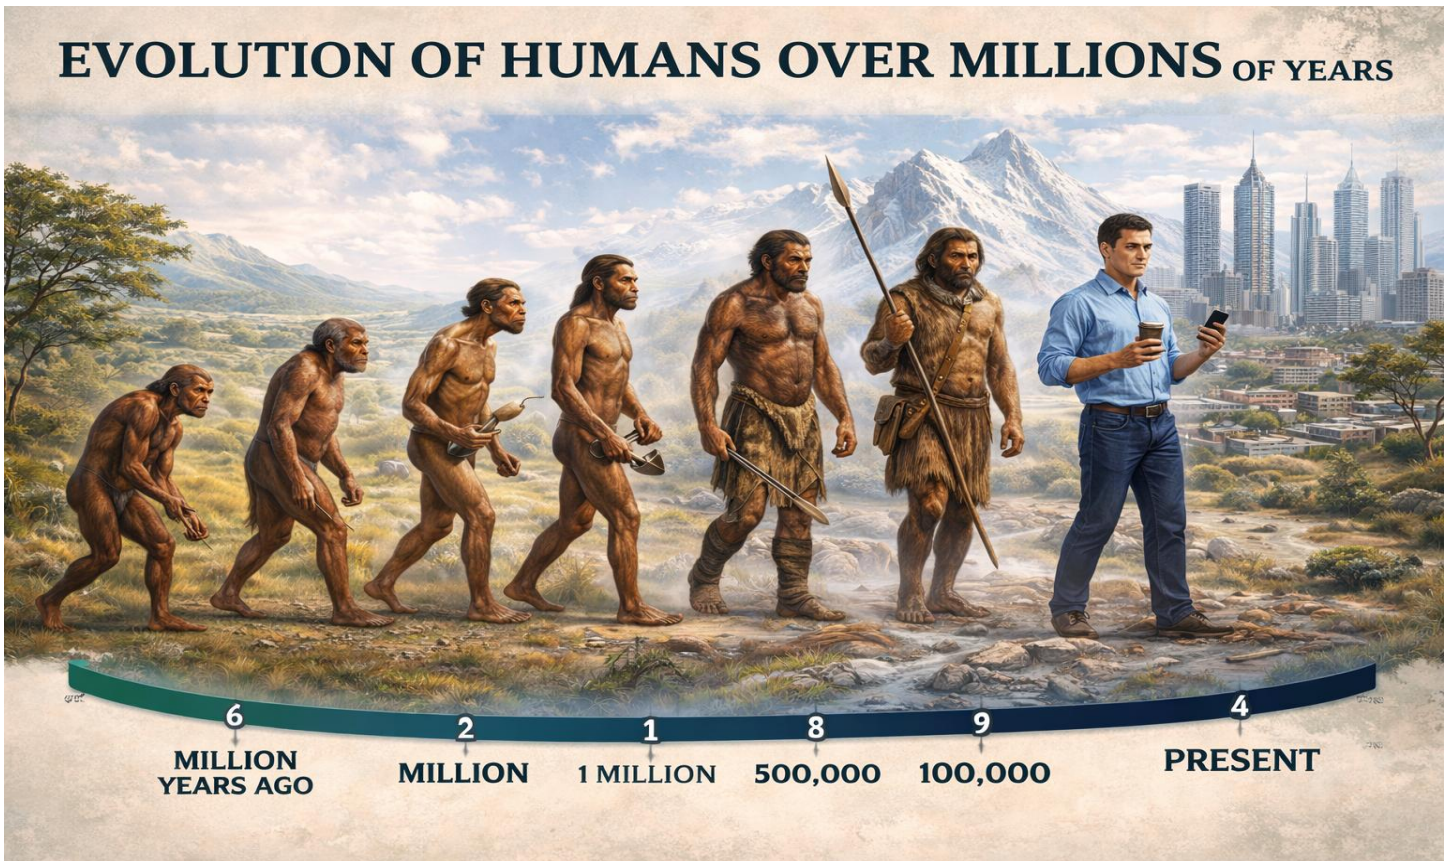

The above shows that the Abrahamic religions theory of the universe being created 6,000 years ago is 100% false based on various sciences.

Based on modern science:

- a. The universe is at least 13.8 billion years old.**
- b. There are billions of planets within our universe and earth planet is at least 4 billion years old.**
- c. Some scientists now believe that there are many universes beyond ours, multiverse.**
- d. Genetic science has proven that it is impossible for the population of humans in the world today to originate from one couple.**
- e. Archeological and geological evidence has shown that human beings have existed for millions of years and not just 6,000 years.**

EVOLUTION OF HUMANS OVER MILLIONS OF YEARS

The above shows that the Abrahamic religions theory of humans existing for 6,000 years is 100% false based on bones and fossils.

THE HUMAN POPULATION CANNOT ORIGINATE FROM ONE COUPLE

The above shows that the Abrahamic religions theory of human population of the world originating from one couple is 100% false based on genetic science.

7. Embryology in the Quran

“Man We did create from a quintessence (of clay); Then We placed him as (a drop of) sperm in a place of rest, firmly fixed; Then We made the sperm into a clot of congealed blood; then of that clot We made a (foetus) lump; then we made out of that lump bones and clothed the bones with flesh...” (Yusuf Ali, Quran 23.12-14)

“The semen stays in the womb for forty nights, then the angel, gives it a shape...” (Sahih Muslim 6395)

“He has created man from a sperm-drop; and behold this same (man) becomes an open disputer!” (Quran 16.4)

“He is created from a drop emitted- Proceeding from between the backbone and the ribs. (Quran 86.6-7)

In the above ‘drop’ means semen.

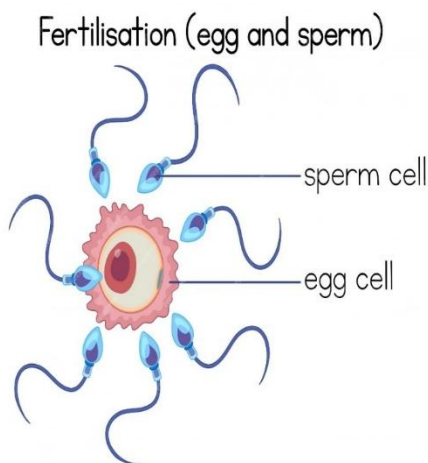

There are errors in the embryology knowledge from Allah. One can visit medical sites on the web or ask medical professionals and know the truth.

Based on the Quran:

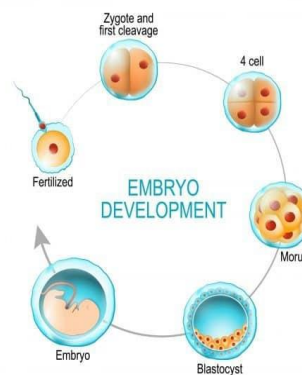

- a. The semen live for forty days; this is 100% false based on science.***
- b. The semen comes from between the backbone and ribs; this is 100% false based on science.***
- c. The sperm develops into a baby; this is 100% false based on science.***
- d. The semen develops into a baby; this is 100% false based on science.***
- e. There is no mention of the most important part in human embryology, the female egg and fertilization.***

Embryology based on modern science:

- 1. The semen is a liquid produced by the prostate gland in the testicles (balls), and it contains millions of sperms.**
- 2. The semen with sperms lives for a maximum of five days.**
- 3. After intercourse, one sperm enters an egg from a female, and this is fertilization.**
- 4. The fertilized egg is one cell which multiplies into billions and lumps together to develop into an embryo (tiny body).**
- 5. The embryo grows into a fetus (bigger body) and then the full baby.**
- 6. The baby comes out at nine months.**

Sperm cells from the male and female egg cell.

The fertilized egg cell multiplies to form an embryo which then develops into a full human body.

8. Is the gender of a child based on the quantity of discharge?

Sahih Muslim, Book 3, Hadith 38:

“I have come to ask you about the child. He (the Holy Prophet) said: The reproductive substance of man is white and that of woman (i. e. ovum central portion) yellow, and when they have sexual intercourse and the male's substance (chromosomes and genes) prevails upon the female's substance (chromosomes and genes), it is the male child that is created by Allah's Decree, and when the substance of the female prevails upon the substance contributed by the male, a female child is formed by the Decree of Allah. The Jew said: What you have said is true; verily you are an Apostle. He then returned and went away. The Messenger of Allah (ﷺ) said: He asked me about such and such things of which I have had no knowledge till Allah gave me that.”

Scientific Facts

The gender of the child is not based on the strength or quantity of the male or female substance and the female substance that develops into a human being is an egg and only one egg is released at a time. So, it is incorrect to say the quantity or strength of female substance because it's just one egg that is released every 28 days.

The male sperm cells have either X or Y type chromosome. The female egg cells have only X type chromosome.

If the sperm that fertilizes an egg is X type, then the child will be girl. If the sperm that fertilizes an egg is Y type, then the child will be a boy. So regardless of the strength or quantity of sperms. The gender of the child is purely based on which sperm cell (X or Y type) first fertilizes an egg.

9. Are living beings created from water?

The Quran, Surah 21 verse 30:

“We made every living thing of water...”

The Quran also makes contradictory statements. The above verse clearly states every living being is made from water, but in the below 2 verses, it clearly states man is made from clay.

“Behold! thy Lord said to the angels: "I am about to create man, from sounding clay from mud moulded into shape" (Quran 15:28)

“Behold, thy Lord said to the angels: "I am about to create man from clay" (Quran 17:61)

Scientific Facts

The bodies of living beings are not created from water nor clay. Water is present within the body but it's not the building block of life. Bodies are created from cells which multiply to form tissues and bones in various formations depending on the species. Those who live in the desert will believe the bodies are made of clay or water,

because they have no knowledge. Those who are educated in science know that bodies are made from cells.

10. Can the sky fall down to Earth?

“He withholds the sky from falling on the Earth except by His leave...” (Quran 22.65)

In Yusuf Ali’s translation, realizing the absurdity of this verse, he deceptively has added (rain) in parenthesis after the word sky. There is no mention of rain in the Arabic version.

Scientific Facts

The sky is made of air which can never fall on the Earth. The compiler of the Quran lacks basic physics knowledge.

11. Can Salt Water and Fresh Water mix?

Based on the Quran, there are two types of water, fresh water and salt water, and they have a barrier between them to keep them separate and thus the two cannot mix.

“It is He Who has let free the two bodies of flowing water: One palatable and sweet, and the other salt and bitter; yet has He made a barrier between them, a partition that is forbidden to be passed.” (Al-Quran 25.53)

“He set between the two an isthmus so that the one does not mix with the other and a forbidding ban a shield that prevents the two from becoming mixed...” (Jalal-Al-Jalalayn explanation on 25.53)

“He has let loosed the two seas (the salt water and the sweet) meeting together. Between them is a barrier which none of them can transgress.” (Al-Quran 55.19-20)

Scientific Facts

Fresh water and salt water can mix perfectly well. There is no barrier between them. You can see the proof yourself, simply get a glass of fresh water and a glass of salt water, then mix the two in a bowl. They will mix nicely.

Salt water is a mixture of salt particles and fresh water (pure water particles) and the reason for the salty taste is due to the presence of salt particles.

If salt water is placed in the sun, the pure water particles will evaporate, leaving behind salt particles in crystals which are packaged and sold as salt.

12. The Earth was created first and then the universe?

Based on the Quran, the Earth was created first and then the universe.

“It is He who created for you all of that which is on the Earth. Then He directed Himself to the heaven....” (Quran 2.29)

Scientific Facts

The Earth planet is within the universe and thus first the universe must be created and then the Earth and other planets.

13. Were the Earth and Universe once one piece?

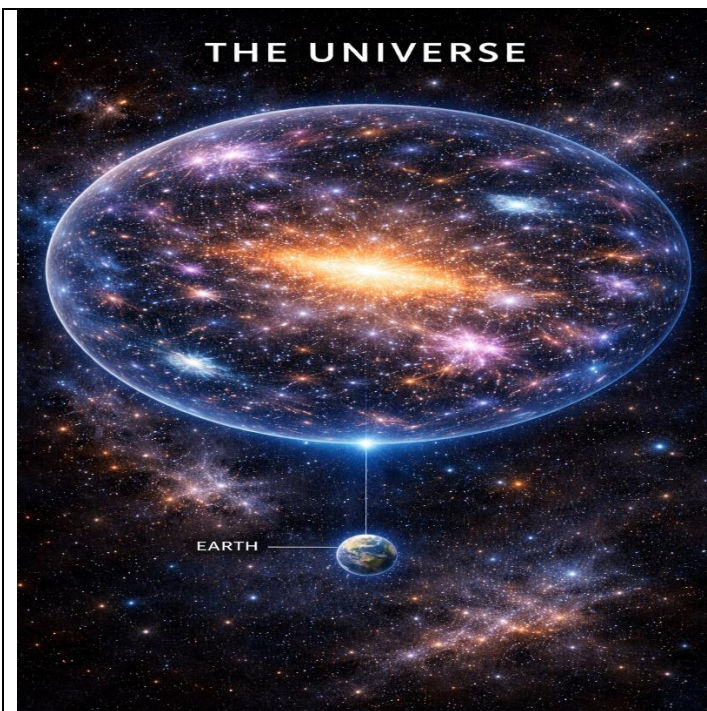

The Quran, Surah 21 verse 30:

“The heavens and the Earth were of one piece, then We parted them ...”

Some Muslims claim the above Quranic verse proves the big bang theory from the Quran. A closer examination reveals this to be false.

The Quran is completely incorrect in saying ‘the heavens and Earth were of one piece’.

Scientific Facts

The Earth planet never existed as one piece joined with the universe. It was created after the universe was created. The Earth planet is within the universe, and it will never part from the universe. Also, based on the scientists, this Earth planet that we are living on is around 4.5 billion years old, thus it never existed before 4.5 billion years ago. The scientists estimate that the universe is at least 13.8 billion years old, and thus this Earth planet did not exist until 9.3 billion years after the universe was created. It makes no sense to think that the Earth was once one piece with the universe.

Many scientists are now rejecting the big bang theory.

14. Are the mountains pegs which keep the Earth stable?

Based on the Quran, the mountains are like tent pegs or stakes which keep the Earth stable and stop it from shaking.

“And the mountains as pegs?” (Quran 78.7)

“He who created the Earth in two days...” (Quran 41.9)

“And He placed on the Earth firmly set mountains over its surface...” (Quran 41.10)

Scientific Facts

The purpose of the mountains is not to keep the Earth stable as claimed by the Quran. So many people have been deceived by this and other false Quranic teachings.

The mountains are part of the ecosystem which affects the weather and fresh water supply. Wind pushes air and clouds upwards when they hit mountain slopes. As the altitude increases, the air pressure decreases. Then, moisture in the clouds condenses and falls as rain. About 80 percent of the planet’s fresh water originates from the mountains. This very clearly explains the purpose of the mountains based on facts.

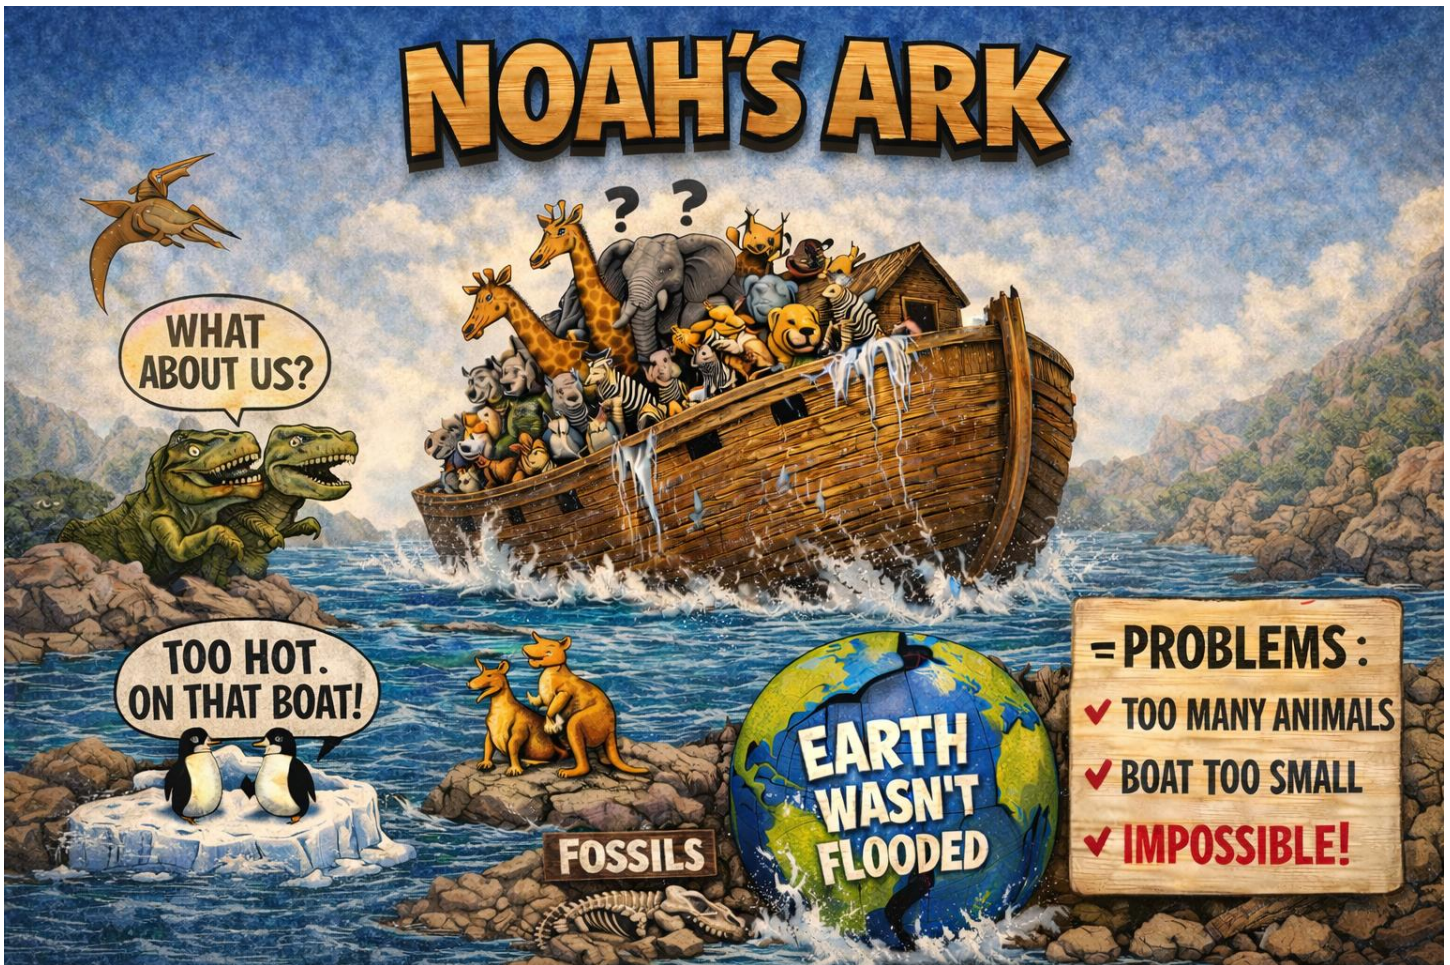

Based on scientists, the planet Earth is around 4.4 billion years old, and it had no mountains for millions of years in the early days of the planet, but still it was stable just as it is today. The mountains are gradually formed over a period of millions of years, but still the planet is stable from day 1 of formation even though there were no mountains.

Based on the Quran (14.9-10), the Earth was created in 2 days with mountains over its surface. This is false based on science. The mountains did not exist until millions of years after the creation of Earth.

The moon planet is very stable even though it has no naturally formed mountains. All the mountains on the moon were created by impact from asteroids. So, if you go back millions of years in the early days of the moon, there were no mountains, but still the moon was just as stable then, as it is today.

The Quranic theory of mountains keeping the planet stable is 100% false.

15. Noah's Ark

Based on Genesis 6 and 7, there was a flood around 4,348 years ago, which covered the whole world. The Quran also advocates a world flood and Noah.

“We, when the water (of Noah's Flood) overflowed beyond its limits, carried you (mankind), in the floating (Ark),” (Quran 69.11)

“Then We saved him and those with him in the ship, and made it (the ship) as an Ayah (a lesson, a warning, etc.) for the 'Alamin (mankind, jinns and all that exists).” (Quran 29.15)

“But they denied him, so We saved him and those with him in the ship, and We drowned those who denied Our tokens...” (Quran 7.64)

1. Man was wicked and so Allah decided to flood the earth and except for those on Noah's boat, all others would be killed. Thus, millions of men, women, animals, and plants would be killed (Genesis 6:5-13, Quran 69.11).

Why would God want to flood the whole Earth and kill trillions of animals and plants for the sins of a few men?

2. Noah was asked to build a boat that would accommodate his family and a pair of each species of animals. The boat was to be 300 cubits in length, 50 cubits in breadth, and height of 30 cubits (Genesis 6:15,18-20, Quran 29.15).

1 cubit=1.5 feet

Based on scientists, there are 7.77 million species of animals. It's impossible to fit a pair of each species of animal on a boat of the above size.

The Bible does not mention anything about saving the plants which based on the scientists' number 390,000 species. If the whole world is flooded, then all plant species will die.

3. Noah was asked to take enough food on the boat to last at least 150 days for his family and all animals (Genesis 6:21, 7:24).

It is impossible to fit enough food on a boat of the above size to last 150 days for all the pair of species of animals. For example, a single elephant needs an average of 150 kg of food and 40 liters of water a day. For 150 days this would be 22,500 kg of food for just one elephant. What about the dinosaurs? They need tons of meat daily. Noah's Ark was not even big enough to fit just one pair of dinosaur species with enough food and water to last 150 days. Not even big enough to accommodate a few species of cattle.

The ocean water is salty and thus not drinkable. Noah's boat would need to store billions of gallons of fresh water to last 150 days for all the 7.77 million species of animals. This is impossible for Noah's boat due to its small size.

4. Even if we assume that all the species of animals fit onto Noah's Ark with food and water to last 150 days. Once the water receded, and all the animals were released. There would be no food for the animals and within a few days they would all die. It would take many months for plants to grow and thus the herbivore animals would have no food for many months. And for the carnivore animals, it would take many years for the animals in their food chain to develop to a sufficient size suitable for feeding on.

5. It's impossible for the polar bears and other animals living in cold regions of the world to travel to and back from Noah's Ark.

Conclusion

Noah's Ark story at best is just a fairy tale suitable for amusing infant children. It's not a factual event.

16. Medical advice from the Founder of Islam

Would you drink water from this well?

Based on the Prophet of Islam, water does not get contaminated by dead dogs, menstrual clothes, and excrement of people.

"Narrated AbuSa'id al-Khudri: I heard that the people asked the Prophet of Allah (ﷺ): Water is brought for you from the well of Buda'ah. It is a well in which dead dogs, menstrual clothes and excrement of people are thrown. The Messenger of Allah (ﷺ) replied: Verily water is pure and is not defiled by anything."(Sunan Abu Dawud Book 1, Hadith 67)

The Prophet prescribed drinking camel urine.

“The climate of Medina did not suit some people, so the Prophet (ﷺ) ordered them to follow his shepherd, i.e. his camels, and drink their milk and urine (as a medicine)...” (Sahih Bukhari 5686)

“ Allah's Messenger (ﷺ) (p.b.u.h) allowed them to go to the herd of camels (given as Zakat) and they drank their milk and urine (as medicine)...” (Sahih Bukhari 1501)

“The Messenger of Allah (ﷺ) sent them to some pregnant camels of his and told them to drink their milk and urine until they recovered...” (Sunan an-Nasai 306)

The Prophet prescribed eating fly wings.

The Prophet said “If a house fly falls in the drink of anyone of you, he should dip it (in the drink), for one of its wings has a disease and the other has the cure for the disease.” (Sahih Al-Bukhari: Volume 4, Book 54, Number 537)

Scientific Facts

The World Health Organization (WHO) is urging people to "avoid drinking raw camel milk or camel urine."

Those with some basic science knowledge will know that water will become contaminated with deadly toxic bacteria if it touches dead bodies or excrement. Flies carry many deadly bacteria on their wings and bodies and thus should never be touched.

The Muslims often criticize the Hindus for drinking cow urine. Based on science, cow urine is antiseptic and thus can do no harm by drinking it and it's proven in many clinical studies to be beneficial as medicine for many diseases.

Cow urine, known as Gomutra, has numerous health benefits including detoxification, immune support, and digestion improvement.

Camel urine is septic and can cause serious infections.
